Add the following:

BADM 236 Business Communication and Critical Thinking (3)

This course focuses on five areas: written communication skills, oral communication skills, interpersonal business relationship skills, research skills, and critical thinking skills. The course prepares the student to think critically and to communicate well. All Business Majors must make a "C" or better in this course in order to be permitted to take junior and senior level courses in the Business School. Prerequisite: Credit of ENGL 101 and ENGL 102.

Delete the following on page 103:

336 Business Communication (3)

A study of theory and practice in communication for business purposes. Focus is primarily in three areas: the theory, process, and problems of communication; development of effective internal communication and practice; development of effective external communication and practice. Prerequisites: Junior standing
