

Helpful Tips for Your Virtual Orientation Module Experience

- The best browsers to use for the Virtual Orientation experience are Google Chrome and Firefox. A laptop or desktop is best. It is mobile friendly, but you may not receive the full experience.
- When creating your account for the Virtual Orientation Modules, please verify you are entering your information correctly.
 - Please use your legal first and last name.
 - Your email should be your Campbell email address.
 - Your student ID number should be your seven-digit Campbell ID number from your acceptance letter. This Campbell ID number will also serve as your username.
 - Please create a password unique to you and easy to remember.
- When logging back in to your Virtual Orientation Modules, please remember the following:
 - Use Google Chrome or Firefox for the best experience.
 - We suggest using the same device each time you log in.
 - Your username is your seven-digit Campbell ID number.
 - If you cannot remember your password or get locked out of your account, please email ugorientation@campbell.edu and we will assist you.
- You may work through the modules at your own pace. We do recommend you complete all eleven modules prior to Friday, July 24.
