

# COVID Exposure Protocol

## Exposure to Confirmed COVID Case

## Are you experiencing COVID 19 Symptoms?

### Yes

Are you fully vaccinated?

#### Yes

I am fully vaccinated and have symptoms.

*What you should do:*

1. Isolate from others and get a COVID-19 test right away.
2. Wear a mask for 14 days regardless of test results. Masks are required inside all Campbell facilities.
3. Submit a COVID Self-Report Form

*Your COVID Test Results*

#### Initial Negative Result:

If negative test you can end quarantine/isolation if symptoms are determined to not be from COVID by a health care professional.

#### Initial Positive Result:

Isolate for at least 10 days with at least 24 hours symptom/fever free without the aid of ibuprofen, tylenol or fever reducers.

#### No

I'm not fully vaccinated and have symptoms.

*What you should do:*

1. Isolate from others and get a COVID-19 test right away.
2. Submit a COVID Self-Report Form.
3. Quarantine if you have not been fully vaccinated for at least 2 weeks nor have had a previous infection in the past 3 months. Quarantine is for 10 days.

*Your COVID Test Results*

#### Initial Negative Result:

If negative test isolate for at least 10 days with at least 24 hours symptom/fever free without the aid of ibuprofen, Tylenol or fever reducers unless directed otherwise by a health professional.

#### Initial Positive Result:

If negative test isolate for at least 10 days with at least 24 hours symptom/fever free without the aid of ibuprofen, Tylenol or fever reducers unless directed otherwise by a health professional.

### No

Are you fully vaccinated?

#### Yes

I'm fully vaccinated and have no symptoms.

*What you should do:*

- Wear a mask in indoor settings for 14 days.
- Get tested in 3-5 days sooner if you develop symptoms.

Masks are required inside all Campbell facilities. Off Campus, the CDC recommends to wear a mask in all public indoor places for 14 days after initial exposure.

*Your COVID Test Results*

#### Initial Negative Result:

Continue to wear a mask for 14 days.

#### Initial Positive Result:

Isolate for at least 10 days with at least 24 hours symptom/fever free without the aid of ibuprofen, Tylenol or fever reducers.

#### No

I'm not fully vaccinated and have no symptoms.

*What you should do:*

1. Isolate from others and consider taking a COVID-19 test at 5-7 days and obtain a test if symptoms develop.
2. Submit a COVID Self-Report Form.
3. Quarantine for 10 days. Quarantine can be shortened to 7 days if you have a negative test at 5-7 days and the approval of a healthcare provider.
