III. PROJECT REQUIREMENTS

Space/Technology Needs – Please address any space/information technology needs this project will require above and beyond currently allotted office and laboratory space.

The PI is responsible for ensuring there is adequate space and/or information technology (IT) for the project upon acceptance of an award. By initialing this form, the department and college/school acknowledge the project's need for space and/or IT.

NOTE: Initials do not indicate a commitment of space and/or IT if the project is funded.

☐ **None** – no additional space, information technology, or renovation required if an award is received on this proposal (go to next section)

☐ **Space is needed (additional space and/or renovation)**

Can space needs be handled within the department?

Principal Investigator Certifications

Principal Investigator (PI) must read, sign, and obtain necessary authorizations for this form.

(NOTE: Each Co-PI must read, sign, and obtain necessary authorizations on a separate Co-PI Certification Form.)

In compliance with Campbell University's Policies and Procedures regarding the conduct of externally funded activities, I certify the following:

1. I certify and attest that the information submitted within the accompanying application is original, true, complete, and accurate. I am aware that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties. I agree to accept responsibility for the scientific conduct of the project and to provide the required progress reports if a grant is awarded as a result of this application.
2. I certify that I have read and understand my responsibilities toward this sponsored project and, if funded, I will exercise the responsibilities as outlined in Sponsored Program's Roles and Responsibilities.
3. I certify that I am neither presently debarred or suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in current transactions by any federal department or agency, and I am not delinquent on any federal debt.
4. I certify that I have read, understand, and will comply with the University's policy on Responding to Allegations of Research Misconduct.
5. I certify that I have read and understand the OSRP Financial Conflict of Interest Policy and that I will comply with the procedures and all conditions or restrictions imposed by Campbell University to manage conflicts of interest or I will forfeit the award. I further certify that I will continue to comply with the FCOI policy throughout the life of this project and will complete a new disclosure form if circumstances arise that would warrant a positive disclosure on sponsored projects.
6. If this application for funding is directly or indirectly from Public Health Service (PHS) agencies, I certify that I have read and understand Campbell University's Financial Conflict of Interest in Sponsored Research policy (PHS Specific), and that I will comply with the Policy and Procedures throughout the life of this project and will continue to complete the annual disclosure form for PHS projects or make modifications if circumstances arise that would warrant further disclosure.
7. I certify that if I receive federal funding via any mechanism, I agree to comply with all public/open access terms of the sponsor.
8. I certify that if I am receiving an unrestricted gift, then the sponsor has not and will not receive any goods or services in whole or partial consideration for their contribution. I also certify that the results of this project are not exclusive to the sponsor.

Cost sharing indicates the use of institutional funds to supplement a sponsor's support of a project. This form should be used for cost sharing commitments in **proposal budgets** and must be submitted to the Office of Sponsored Research & Programs (OSRP) along with the proposal and the Campbell University. ***Please refer to page 2 for definitions.*** Your proposal cannot be processed unless this form is submitted for projects that involve cost sharing. **If this is a revision of a previously submitted cost sharing commitment form, please provide documentation (a revised budget and /or a letter to the sponsor).**

Dean and Chair: Signing this form represents verification that the source (general ledger) account numbers provided are currently valid and guarantees that funds are readily available to cost share towards the referenced project upon award. If in-kind cost sharing is involved, please contact OSRP@campbell.edu. If multiple account numbers are used, as a source of cost sharing, please use a separate form for each department.

COST SHARING DEFINITIONS

Cost sharing is the cost of a project not borne by the sponsor. Cost sharing, also known as “matching” or “institutional support” is all contributions, including cash, in-kind and third party contributions. To be eligible for cost sharing, contributed costs must meet the same requirements as direct-charged project costs; the costs must be allowable, verifiable, reasonable, and necessary for the performance of the project.

A sponsor may require Campbell to contribute to the cost of a project (mandatory) or Campbell may choose to offer to cost share a portion of the project cost (voluntary). Once cost sharing is included in the proposal (mandatory or voluntary) and accepted by the sponsor it becomes legally binding Mandatory Cost Sharing and is subject to audit.

When the project is funded, the cost sharing commitment funds specified on the form will be transferred by the Accounting Office from the source budget code account indicated. Failure to provide the level of cost sharing reflected in the approved and awarded budget may result in the termination of the award, disallowance of costs and/or refund of funds to the sponsor by Campbell University.

Cost sharing has a profound impact on the institution's budget. Whether cost sharing is mandated by the sponsor or is voluntarily contributed, the institution must provide the resources needed to meet the cost sharing requirement.

In-Kind Contributions are the value of third party non-cash contributions. Examples of in-kind contributions include the fair market value of volunteer services (other than by university employees), donated supplies, donated equipment (normally depreciation thereon), the donated use of non-university space (fair rental value), or the donated use of non-university equipment (fair rental value). A form for reporting in-kind cost sharing can be requested from the Office of Sponsored Research & Programs.

Using Waived F&A as Cost-Share: Many sponsors who require cost-sharing also limit the amount of F&A they will pay, often capping it at 8%-15%. In such circumstances, the first goal should be to use the portion of F&A the sponsor will not pay to meet the cost-share requirements. Campbell's standard F&A rates are well above these common caps, a required cash match of perhaps 25% can be achieved using this method alone. This sort of match requires additional internal tracking by the Principal Investigator, the Office of Sponsored Research & Programs and the Accounting Office.

Many sponsors will accept this approach, but it may require negotiation. It may be helpful to describe these expenses more fully. Some sponsors will not accept costs labeled “indirect costs” as match, but will permit an allowance for “utilities, space maintenance, and accounting” to count as cost-share. The OSRP will contact the sponsor to conduct this negotiation after meeting with the project personnel.

For National Science Foundation (NSF), mandatory cost sharing requirements will be clearly identified in the solicitation and must be included on Line M of the proposed budget. **The proposed mandatory cost sharing cannot exceed the amount specified in the solicitation. Any inclusion of voluntary cost sharing for NSF is strictly prohibited.**

Principal investigators are responsible for reviewing limitations of each respective sponsor and the announcement.
