The Mobile Service is an on-campus program where we service your vehicle while you work. Just schedule an appointment - we'll contact you to collect your keys and vehicle location. Your car will be moved to our service area near the Track (Lot C), then returned once complete. You'll be notified to retrieve your keys, and payment will be taken by phone (online payments coming soon).

You must use a personal email, not a Campbell University email, when scheduling an appointment.

Campbell University ("Campbell") has agreed to allow the Capital Automotive Group ("Capital Auto") to use Campbell's facilities to perform services for Capital Auto customers. Campbell does not benefit financially in any manner from the arrangement, nor does Campbell receive any income from this agreement.
