A minimum of a Bachelor's Degree (in a science field) from an accredited U.S. institution  
GPA = A minimum of 3.0

Satisfy Campbell University General Admission Requirements by submitting a completed application form

Title	Description
Herbal Medicine Seminar	This course is an investigation of the use of herbal preparations in the rational application in pharmacy. The course is intended to provide the student with a basic knowledge of botanical and herbal preparations. This information will be given in a seminar style where students will be required to read and prepare to discuss articles on these agents.
Botanical & Alternative Medicine I	This course discusses herbal remedies recently being used as alternative solutions to treat and prevent different diseases.
Botanical & Alternative Medicine II	The most commonly available herbs and natural products will be covered concerning their therapeutic effect and the dosage forms. Also, an overview of the Eastern therapies will be presented.
Complementary Medicines: Physical and Spiritual Modalities	The complementary modalities including the physical and spiritual that are commonly encountered in practice will be discussed. Examples of those modalities are meditation, music therapy, energy work, and chiropractic.
Botanical Therapeutics	This course offers a detailed description and therapeutic applications of individual herbs and herbal formulas (herbal combinations) about various disease states (organ/body system applications; such as endocrine or digestive systems.)
