# How it Works

Students enrolled in the MDiv/MBA Dual Degree program complete the full Core Curriculum for each individual degree. The time and money saving benefits of the dual degree option are realized through the sharing of courses across the elective curriculum of both programs. MBA courses are used to satisfy MDiv elective course credit, and MDiv courses are used to satisfy MBA elective course credit, resulting in students taking 21 credits hours less than would be required if each degree was pursued separately.
