WORK EXPERIENCE

Worked as an intern for Wells Fargo in trust fund management (June 1st 2025-August 8th 2025). I would show up around 8:30 every day, and ended the day around 5pm. I did a lot of trust account reviews, where I would read the governing document, look at the coding Wells Fargo had on the trust account, and fill out an account review to ensure the trust was being ran accordingly. I also looked over and filled out some discretionary requests for beneficiaries. They were called DARS, I filled them out and sent them to a co-worker for approval. Another major thing I did on the internship was called "Project Opti Code

54." O/C 54 was a code dealing with what the governing document said to do with income. All of the accounts I worked on were marked as "N/A" because the language was unclear. I read the document, and according to the guidelines I was given from the risk manager, would change to coding to what I believed fit best, a lot of it dealing with what to do with undistributed income. Would interact with customers daily ensuring them a happy experience at Fruition. Would always offer to carry the heavy boxes of fruit, bowls, cups etc. down into the basement so my coworkers would not have to. Would close shop ensuring that all the items were put properly back into place, the shop was clean, and locked.
