Total Math and Science Hours: 31 additional science credits beyond the regular mechanical concentration degree

Total Engineering Hours: Same engineering hours as the regular mechanical concentration degree

### ABET Requirements

Math and Basic Science: minimum of 30 semester credit hours

Engineering topics: minimum of 45 semester credit hours

**Bold-Faced Font** – designates a course taught by the School of Engineering

**Blue Box** – indicates a course taken by all ENGR students in the same Tier

**Orange Box** – indicates a course taken by pre-meds that is not taken by other MECH concentration students

\* - indicates class-lab

@ BIOL 335 is offered in spring semester of even numbered years. BIOL 336 is offered spring semester of odd numbered years. Note that BIOL 335 allows BIOL 342 to be taken concurrently.

&Degree total does not include courses taken to satisfy pre-med requirements/recommendations that are not already part of the engineering curriculum. Degree total reflects only courses required by the BS.ENGR.MECH degree.

## **Medical School**

Students should check the specific requirements for each medical school program. Some schools may have additional requirements. The MCAT is required for admission to medical school.

The following courses are required for most medical programs:

- CHEM 227 and 228 Organic Chemistry I and II
- BIOL 220 and 223 Human Anatomy and Physiology I and II
- BIOL 280 Biochemistry and Microbiology
- BIOL 342 Genetics
- BIOL 430 Biochemistry

The following courses are recommended for most medical programs:

- PSYC 222 General Psychology
- BIOL 335 Immunology or BIOL 336 Medical Microbiology
- SOCI 225 General Sociology
- an additional PSYC class (PSYC 260, 369, 461 are good options)

A student will significantly strengthen his/her application to medical school with the addition of work experience in a medical setting. This work may include volunteer, CNA, EMT, medical missions work, etc. Any work which includes patient contact is preferred.

*THE BS.ENGR.MECH track includes all of these required and recommended courses, as well as some pre-requisite courses necessary to complete the courses listed above.*
